

Nature Playground Coming Soon

Plans are underway to build a Nature Playground Area in the North East corner of our school grounds before the end of 2018.

Using natural and recycled materials it will be used by children of all ages.

Children will enjoy elements of risk and challenge and enjoy a variety of interactive games and activities.

We look forward to getting our new play area started!

Plans and ideas will be displayed and a number of opportunities to have input will take place in the future.

Hopefully we will engage the community through donations of materials, skills and equipment in the building process.
